

## KITS, REAGENTS, PLASTICWARE AND CONSUMABLES

- » SeaKem® Agaroses
- » Primary Cells and Media
- » Stem Cells and Media
- » Serum Free Media
- » Nucleofection and Transfection Reagents
- » qPCR Arrays
- » Cell Based Assays
- » PCR Solution
- » Electrophoresis
- » Xenometrix Ames II Mutagenicity Assays
- » Cytotoxicity Kits

### Genomic Kits

- » Plasmid Kits
- » Bacterial/Viral Kits
- » Multisource Extraction Kits
- » MicroRNA Extraction Kits
- » Blood genomic DNA & RNA Kits
- » PCR Cleanup Kits & Gel Extraction Kits
- » Multispin Kits & Vacuum Manifold Kits

## Millipore Chemicon, Linco & Upstate Antibodies, Kits, Assays and Reagents.

### Cell Biology Products:

- » Cell Culture Reagents
- » Cell Migration Assays
- » Proteins
- » Gene Targeting
- » RNAi Product
- » Adhesion & Structure
- » Pathway Tools
- » Apoptosis
- » Stem Cell Research

### Custom Products

- » Desalted DNA Oligos
- » Ready Made Primers
- » RNA Cloning Kit

### IMMUNODETECTION & CELL SIGNALING PRODUCTS

- » Immunoprecipitation
- » Immunostaining
- » Immunochemistry
- » Multiplex Immuno Assay Kits
- » ELISA Kits, Assay
- » Protein Phosphorylation
- » Transcription Factors & Nuclear Receptors

### Plastic ware

- » PCR Tubes, Plates and Pipette
- » Sealing Films and Labels
- » Cryovials & Tubes
- » Deep Well Blocks
- » Storage Racks and Essentials

### Industrial Filters for Liquids

- » CMP Consumables like slurry filters, brushes, retainer rings
- » Filtration & Purification Products for liquids and gases
- » Fluid Handling Products like Chemical containers, tubings, pipings, fittings, sub-systems, sanitary products & fittings.
- » IC Device handling like chip trays, wafer shippers
- » Wafer / Reticle handling like FOUPS, SMIF PODS, Shippers

Membrane and depth media filtration technologies for chemicals, water, solvents and photochemicals.
